## Objective:

A Computer Science graduate with practical experience in IT support and system operations. I have skills in technical troubleshooting, system analysis, and process improvement. I have experience developing internal tools, managing system records, and supporting daily business operations. I am seeking an opportunity to apply my technical, analytical, and problem-solving skills while developing my experience and contributing to the organization.

## Education:

### Bachelor's Degree in Computer Science

May 2025

Taibah University

## Experience:

### Operations & Systems Specialist | Com Al-Sharq Company

Dec 2025 – July 2026

- Provided technical support for computers, printers, and network issues.
- Developed internal systems and tracking tools to automate tasks and improve work processes.
- Managed system records and operational data.
- Prepared daily, weekly, and monthly reports.

### IT Intern | Cooperative Training | Anwar Al Madinah Movenpick Hotel

June 2024 – August 2024

- Maintained and monitored network access points and switches.
- Provided technical support and hardware maintenance for staff.
- Supported hotel operations using the Opera PMS.
- Troubleshoot technical issues and supported daily IT operations.

## Projects:

### Graduation Project: AutoPartSA – An E-Platform for Car Spare Parts & Maintenance Services

Designed and developed an e-platform that connects vehicle owners with certified car agencies and spare parts providers. The platform streamlines spare parts purchasing and maintenance appointment booking through a centralized system, improving service accessibility, operational efficiency, and the overall post-sale customer experience.

## Courses and Certifications:

- |                                                |      |
|------------------------------------------------|------|
| • <b>Introduction to Packet Tracer</b>   Cisco | 2024 |
| • <b>Cybersecurity Track</b>   FutureX         | 2023 |

## Skills:

### Technical:

- **Core Competencies:** IT Support, Technical Troubleshooting, System Analysis, Problem Solving, Process Improvement, Network Fundamentals
- **Hardware:** Laptop & Desktop Troubleshooting
- **Tools & Technologies:** Microsoft Office, Git/GitHub, Cisco Packet Tracer, Opera PMS
